EXPERIENCE

Full Stack Developer Intern — Softmusk Solutions Pvt. Ltd. Jan 2024 – Apr 2024

- Engineered full-stack web applications on the MERN stack, building responsive, cross-device interfaces used in production.
- Architected and delivered RESTful APIs that streamlined frontend-backend communication and reduced integration time for new features.
- Implemented end-to-end CRUD workflows using Express.js, MongoDB, and Mongoose, improving data reliability across modules.
- Collaborated with a cross-functional development team using Git/GitHub, maintaining clean version control across parallel feature branches.

PROJECTS

Wanderlust | MERN Stack | [GitHub](#) | [Live Demo](#)

- Built and deployed a full-stack accommodation booking platform inspired by Airbnb, supporting end-to-end listing and booking workflows.
- Designed secure authentication and authorization, enabling role-based access for listings, reviews, and user accounts.
- Integrated Cloudinary for scalable image storage and management, improving media load performance across listings.
- Deployed the application on Render with a responsive Bootstrap UI, ensuring consistent experience across screen sizes.

Smart Hire Hub | MERN Stack | [GitHub](#)

- Built a full-stack recruitment platform enabling registration, job posting, and application tracking for recruiters and candidates.
- Implemented JWT-based authentication and role-based access control, strengthening account and data security.
- Developed RESTful APIs with Node.js, Express.js, and MongoDB to manage job listings and applications efficiently at scale.
- Designed responsive React.js interfaces, delivering a seamless experience across the recruiter and applicant journeys.
